

1)Write a trigger, when an account is inserted with type “Customer – Direct” Populate Customer priority as “High”.

```
Trigger AccountTrigger on Account (before Insert)
{
If (trigger. isBefore && trigger. isInsert)
{
AccountTriggerHandler.HandleBeforInsert(trigger. New);
// calling a class to Execute the trigger...
}
}
```

Public Class AccountTriggerhandler

```
{  
    Public static void handleBeforeInsert (List<Account>Acclist)  
    {  
        For (Account A : Acclist)  
        {  
            If (A. Type == 'Customer - Direct')  
            {  
                A. CustomerPriority__c = 'High';  
            }  
        }  
    }  
}
```
