9.Write a trigger when an account inserts and CopyBillingToShipping (Custom Field) picklist is equal to Yes then automatically copy account billing address into account shipping address.

Object: Account

```
Trigger AccountTrigger on Account (Before Insert)
{
    If (Trigger. IsBefore && Trigger. IsInsert)
    {
        AccountTriggerHanlder. HandleBeforeInsert (Trigger.New)
        //Calling the HandlerClass to execute the trigger ......
    }
}
```
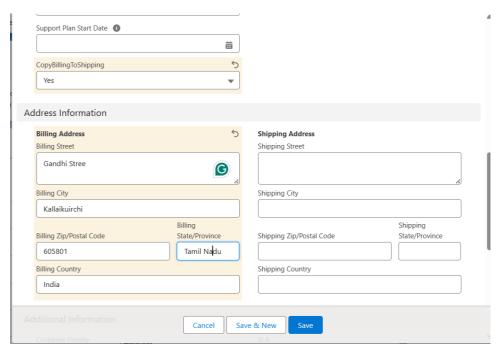

SWIPE THE PAGE TO SEE HANLDERCLASS……

```
Public class AccountTriggerHanlder
{
    public static void hanldeBeforeInsert (List<Account>Acclist)
    {
        For(Account A: Acclist)
        {
            if(A.CopyBillingToShipping__c == 'Yes')
            {
                A.ShippingStreet = A.BillingStreet;
                A.ShippingCity = A.BillingCity;
                A.ShippingState = A.BillingState;
                A.ShippingCountry = A.BillingCountry;
                A.ShippingPostalCode = A.BillingPostalCode;
            }
        }
    }
}
```

RESULT:

Before Saving the Record....

After saving Billing Address Has been copied to Shipping Address
